How to Calculate Fabric Yards needed if dealer using own fabric.									FABRIC UPGRADE			
1) Round up the quantity of chairs to Even Number.									NDI			
2) Divide the Even Number by 2.												
3) Multiple the result of step 2 by .75.												
(For example, if a dealer orders 11 chairs, then round that up to 12. Divide 12 by 2 = 6.												
Multiple 6 by .75 = 4.5 yds required for 11 chairs.)
