

For Immediate Release: January 2026

## New! RC10B84 & RC10B7 FT Parts

Factory Team would like to announce some new parts for the current generation tenth scale cars!

**#92567**

### RC10B7 FT Aluminum Differential Height Inserts, Notched

The new RC10B7 FT aluminum differential height inserts allow users the option to run aluminum differential height inserts in their new RC10B7 3-gear gearbox. These inserts also fit in the gearbox of the RC10B84, RC10T7, RC10SC7, and are backwards compatible to fit in the RC10B7 5-gear gearbox.

**Compatible with:**

RC10B7, RC10B7D, RC10B84, RC10B84D,  
RC10T7, RC10SC7

**#92568**

### RC10B84 FT 39/17 Ring and Pinion Overdrive Gear Set, Steel

The RC10B84 overdrive gear set is for use in the front gearbox to allow for more equal tire rollout when the front tires are much smaller than the rear tires. This is common on surfaces like carpet.

**Compatible with:**

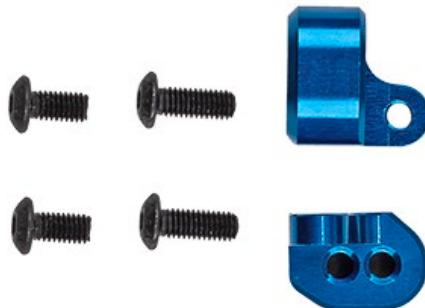

RC10B84 and RC10B84D

**#92569**

## RC10B84 FT Vertical Rear Ballstud Mount

Compatible with:

RC10B84, RC10B84D

**#92570**

## RC10B84 FT Vertical Rear Ballstud Mount Shock Tower

Compatible with:

RC10B84, RC10B84D

**#92571**

## RC10B84 FT Vertical Rear Ballstud Mount Kit

The FT vertical rear ballstud mount kit allows for more fine adjustment when tuning roll center on your RC10B84.

Compatible with:

RC10B84, RC10B84D
