

For Immediate Release: April 2025

New FT Parts for the DC10

Factory Team presents the new DC10 aluminum arm mount A/B, C, and D as well as the aluminum spur gear hub. The parts are anodized blue to show our signature flare that is sure to catch the crowd's attention and enriched with a post-operation chamfer to add that subtle amount of silver. The A/B arm mounts come in a two-pack since both A and B arm mounts retain the same geometry.
