

For Immediate Release: October 2026

RC10 Retro 80s Ultra Rider 2WD

#6060

ELECTRIC ■ OFF ROAD ■ 1:10 SCALE ■ 2 WHEEL DRIVE ■ KIT

The RC10 Ultra Rider 2WD isn't just a tribute; it's a high-performance celebration of engineering that defined a decade.

Combining the iconic aesthetics of the 1980s with modern Team Associated precision, the RC10 Ultra Rider 2WD is built for those who remember the thrill of the first dirt jump and those ready to experience it for the first time.

VINTAGE SOUL. MODERN STRENGTH.

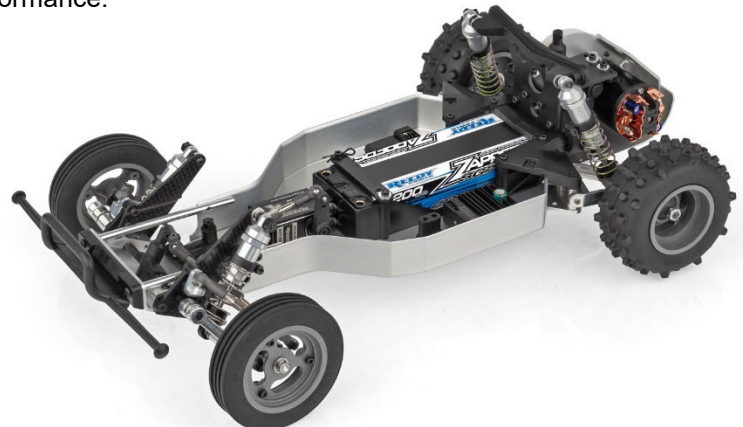

Iconic Front and Rear Trailing Arms: At the heart of the RC10 Ultra Rider 2WD is the legendary front front and rear trailing arm suspension. This unique design captures the authentic look and feel of the era's most innovative race cars and provides a nostalgic driving experience.

Signature Aluminum Shocks: It wouldn't be a classic without the bling. Our race-proven, oil-filled shocks offer buttery-smooth damping and that unmistakable "Team Associated" performance.

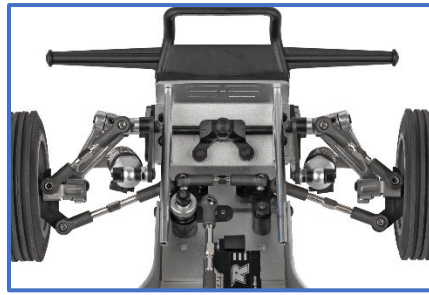

Full Independent Suspension: Don't let the vintage vibes fool you. With fully independent front and rear suspension geometry, the RC10 Ultra Rider 2WD soaks up bumps and sticks the landings with the poise of a modern champion.

From the aggressive stance to the sleek, period-correct body lines, every inch of the Ultra Rider is designed to turn heads and stir up memories of backyard battles and local track glory.

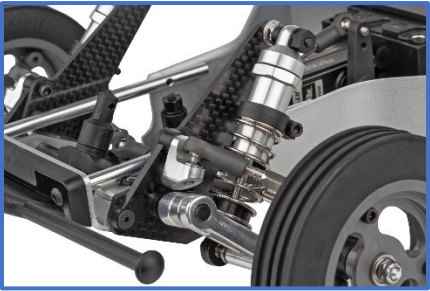

NEW front trailing arm king pin design

NEW forged aluminum front trailing arms

NEW CNC front arm mounts and upper link mounts

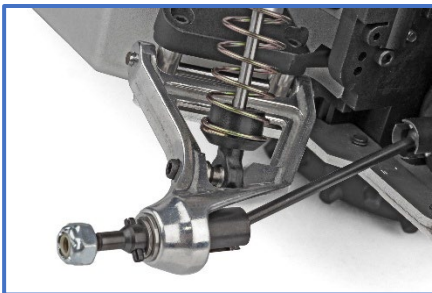

NEW carbon fiber front shock towers

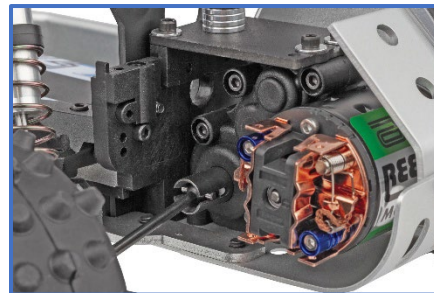

NEW black molded front bumper
