For Immediate Release: November 2026

RC10L Kit #8002

1:10 Scale 2WD Electric On Road Competition Race Car

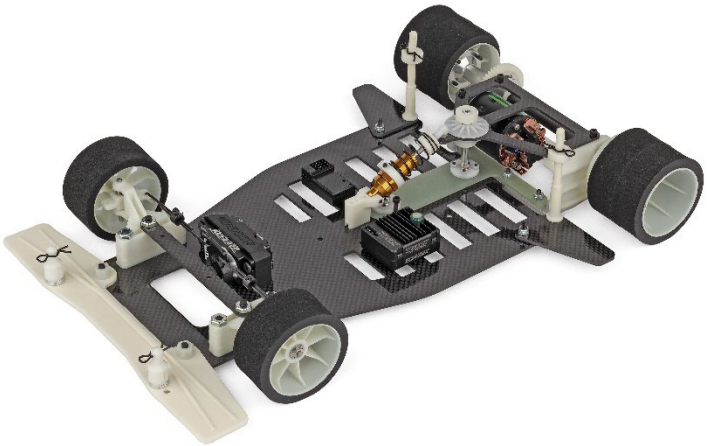

ELECTRIC ▪ 1:10 SCALE ▪ 2 WHEEL DRIVE ▪ KIT

More than just an enlarged version of our back-to-back World Champion RC12L, the reborn Team Associated RC10L has everything it takes to dominate the 1:10 scale road racing class. The prototype RC10L was an instant success in its competition debut, qualifying fastest in the first 1:10 ROAR Nationals. Another prototype exceeded 57 miles per hour in the inaugural Thunderdrome banked oval event, and the RC10L set a new track record at Whippoorwill Raceway.

That legendary competition in engineering returns. We retained the original design features that create exceptional cornering response and quick steering, including the rear monoshock and low polar moments of inertia. It also features the graphite alloy VariLok differential for supersmooth action, a ball joint supported T-bar with tweak adjusters, and special lightweight racing wheels.

To meet modern track demands, this relaunch introduces an updated servo mount and a chassis redesigned to accommodate a center-mounted LiPo battery. Combined with the centered motor design, this ensures perfectly balanced weight distribution.

FEATURES

- New centralized shorty LiPo battery mounting system
- Modern servo mount
- Precision Carbon Fiber Chassis
- CNC machined aluminum rear lower plate
- Carbon Fiber upper rear plate
- T-bar pod flexure with adjustable friction plate
- Authentic original clear racing body
- Quality foam donut tires included
- Original lightweight racing wheels
- Ball bearings throughout
- Adjustable rear axle height inserts
- Lightweight Graphite rear main shaft
- CNC aluminum rear wheels hubs
- Precision ball differential
- Adjustable gold anodized oil-filled damper
- Carbon fiber chassis side wings
- Original and optional fiberglass T-bar systems
- CNC aluminum motor mount
- Carbon fiber front suspension brace
- Authentic original molded parts all around

Items required for operation:
ESC, Motor, Receiver, Transmitter, Servo, suitable NiMh or 1S/2S LiPo battery for vehicle, and a charger.

SPECS

Scale	1:10
Power	Electric
Length	381mm (15 in.)
Width	226.8mm (89.3 in.)
Weight	1550g (3.42 lbs.)
Wheelbase	267.7mm (10.54 in.)
Internal Gear Ratio:	2.60:1
Drive	2WD
Body Style:	Pan Car

*Final width, length and weight will vary based on electronics, tire configuration, wing position and vehicle setup.

Recommended Electronics:

- Servo: #27171 Reedy RS1606HD Low-Profile Brushless Hi-Speed Servo)
- Battery: #27614 (Reedy Power STOCKSTAR 8300mAh 3.7V 160C 1:12)
- Motor: #27481 (Sonic 540-SP5 13.5T Brushless Motor)
  #27480 (Sonic 540-SP5 17.5T Brushless Motor)
  #27479 (Sonic 540-SP5 21.5T Brushless Motor)
- Charger: #27203 (Reedy 1416-C2L Dual AC/DC Competition Balance Charger)

OTHER HELPFUL ITEMS

- Body Scissors (AE Part # 1737)
- Reamer / Hole Punch
- Hobby Knife
- Needle Nose Pliers
- Wire Cutters
- Soldering Iron
- Calipers or a Precision Ruler
