Truck Electric 1:10

1980 - 1990 / 1991 - 1996

RULES

Interpretation and enforcement of rules are at the sole discretion of AE Tech Officials

- You are responsible for making sure your RC is in the right class
- ReRe's are allowed in their respective year ranges
- Keep your RC the way it was back in the day
- Period-correct and modern upgrades are permitted, with these conditions:
 - * Use of period-appropriate alloys and composites (e.g., aluminum or magnesium) and materials that were in use during the era
 - * Reinforcements or reliability improvements, provided they do not alter the geometry of the original parts
 - * Reproduction parts or upgrades should closely retain the original dimensions and mounting points, to preserve historical accuracy
- Excessive custom mods will subject the vehicle to bumping up to the next year range, or disqualification
- Open ESC, wheels/tires, shocks, slippers, drive axles, tie-rods/links
- Brushless motor limits: 2WD Buggy/Truck: 13.5T; 4WD: 10.5T
- Brushed motor limits: none
- LiPo's are limited to 2S, must have hard case, and LiPo Bags must be used for charging
- Tamiya DT-02 Holiday Buggy 2010 and Sand Rover 2011 are not eligible
- Maximum buggy width is 250mm with no more than 50g added weight
- No Tire Sauce allowed; it won't be needed!
- Direct questions to: Service@associatedelectrics.com
