## RC10 Retro 80's Ultra Champ

#6050

1:10 Scale 2WD Electric Off Road Competition Buggy Kit

ELECTRIC ▪ OFF ROAD ▪ 1:10 SCALE ▪ 2 WHEEL DRIVE ▪ KIT

The NEW Team Associated Ultra Champ revives the soul of the original RC10 with authentic design, premium materials, and unmistakable 80's style. Built on a true RC10 platform, the Ultra Champ features aluminum trailing arm rear suspension for period-correct performance and iconic handling characteristics that defined an era of 1:1 off-road racing.

Retro-inspired styling is brought to life with a new molded front bumper and side guards, blending vintage looks with modern durability. At its core is the legendary Stealth® A.T.C. transmission with ball differential, delivering smooth, efficient power transfer and proven reliability. Featuring genuine Team Associated white molded and dyable plastics from front to back.

High-end details complete the package, including threaded steel turnbuckles for precise adjustability, gold anodized aluminum long-travel shocks for classic performance and looks, and a factory-correct Protech body set with authentic decals that capture the unmistakable spirit of the box art imagery.

The Ultra Champ isn't just a throwback—it's a celebration of where RC racing began.
