

For Immediate Release: June 2026

New! Reedy Power 480mAh 65C 7.4V 1:28 LiPo Battery

Reedy Power, a leading name in RC performance electronics, is proud to announce the launch of its latest battery, a 480mAh 65C 7.4V LiPo designed specifically for 1:28 micro racing enthusiasts. Engineered for maximum power, durability, and efficiency, this cutting-edge battery is set to redefine performance standards in the increasing competitive world of 1:28 micro racing.

An impressive 65C rating and 480mAh capacity provides explosive power and run time across all 1:28 racing classes. Weighing just 18g, this lightweight battery ensures optimal vehicle handling, making it ideal for racers seeking a competitive edge over an entire lap.

A high quality, durable hard case helps prevent damage while embedded 2mm socket connectors keep power robbing resistance to a minimum.

LiPo battery technology continues to evolve, and Reedy Power is committed to bringing improved performance to the masses.

Not compatible with #20168

Features

- State-of-the-art LiPo chemistry
- Updated formulation and construction
- Heavy-duty internal construction
- High capacity
- Reduced IR with elevated average voltage
- Proven reliability and cycle-life
- Durable hard case with low-resistance connectors

Specifications

Model Number	27620
Capacity	480mAh
Voltage	7.4V (2S)
Dimensions (mm)	44.45x25.4x12.7
Max. Charge Rate	1.2A
Discharge Current	65C
Weight (g)	23
Socket	2mm/2mm (included)
