For Immediate Release: November 2026

RC10T Model 24 Kit #20207

1:24 SCALE 2WD ELECTRIC OFF ROAD TRUCK KIT

ELECTRIC ▪ OFF ROAD ▪ 1:24 SCALE ▪ 2 WHEEL DRIVE ▪ KIT

A 1:24 TRIBUTE TO AN RC LEGEND

The RC10T Model 24 is a faithful, downsized tribute to one of the most iconic radio control trucks ever created. Designed as an exact replica of the legendary 1:10 scale RC10T, this 1:24 scale version captures the same unmistakable silhouette, proportions, and design details that defined a generation of RC racing. From the classic white wheels and gold-anodized aluminum tub, to the unmistakable suspension layout, every element reflects the heritage of the original championship-winning truck.

Despite its compact size, the RC10T Model 24 delivers an authentic RC experience. This model is perfect for collectors, longtime RC enthusiasts, and newcomers alike who want to experience RC10T history in a smaller, more accessible format. The RC10T Model 24 isn't just a mini RC car—it's a celebration of innovation, performance, and timeless design that helped shape the world of radio control racing.

THE TEAM DOES IT IN THE DIRT

A RACE CAR, NOT A TOY — NOW IN 1:24 SCALE

You've heard it before, and it still rings true. Team Associated doesn't build toys—we design and engineer true RACE cars, now expertly scaled down to an authentic 1:24 version of the legendary RC10T. The RC10T Model 24 captures the look, feel, and performance DNA of the original in a compact, precision-built package.

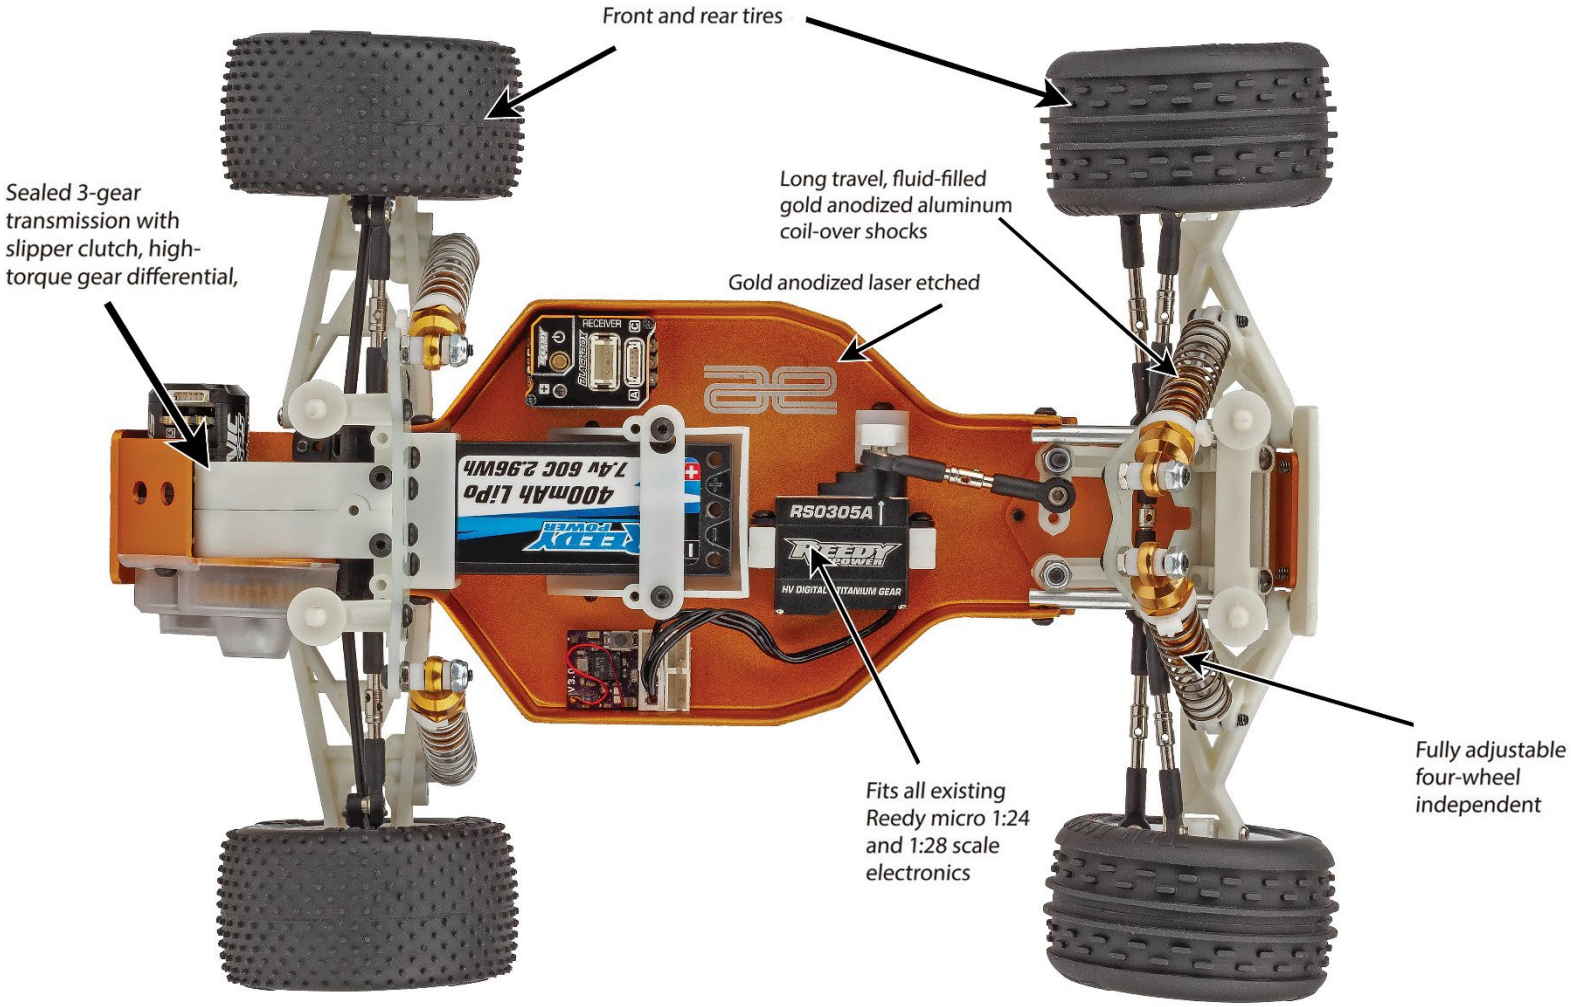

The RC10T Model 24 features fully independent suspension, a scaled aluminum monocoque tub chassis, and race-inspired hardware throughout. Strength, durability, and attention to detail come standard.

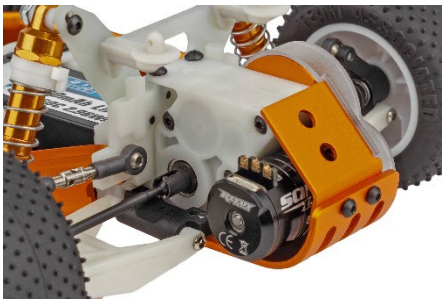

RACE-WINNING ENGINEERING. PERFECTLY SCALED

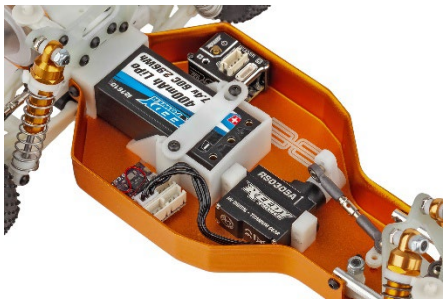

Long-throw, fluid-filled racing shocks deliver smooth, controlled damping, while the lightweight yet rugged suspension provides real adjustability just like larger counterpart race buggies. The A-arm design allows precise tuning of camber, ride height, and spring rates, and an adjustable gear differential ensures balanced power delivery. With excellent ground clearance and a low center of gravity, the RC10T Model 24 delivers impressive balance and performance across a variety of surfaces.

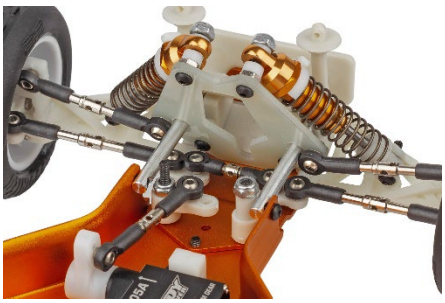

GET THE JUMP ON THE COMPETITION

Experience off-road RC racing heritage in a compact form. The iconic RC10T—reborn in 1:24 scale—is ready to race, display, and impress. Take the challenge and build yourself a winner. Team Associated RC10T Model 24.

FEATURES

- Full race rear suspension includes durable CVA dogbone and stub axle drivetrain with pinned modular wheels. Quick release knockoff design provides fast, accurate alignment. Low profile gearbox uses VariLok adjustable diff and is protected by an integrated motor/heat sink.
- The smooth undercarriage of the RC10T's aluminum monocoque tub and special gearbox provide maximum ground clearance.
- Independent suspension with coil-over shocks help smooth out the bumps. Precision molded, nylon suspension components can be easily custom color dyed. A-arm/ball joint design permits static camber, camber rise, caster, ride height and spring rate tuning to suit every type of track.
- Front and rear tires included
- Long travel, fluid-filled gold anodized aluminum coil-over shocks
- Gold anodized laser etched chassis
- Sealed 3-gear transmission with slipper clutch, high-torque gear differential
- Fully adjustable Four-wheel independent suspension
- Fits all existing Reedy Micro 1:24 and 1:28 scale electronics

SPECIFICATIONS

Scale	1:24 Scale
Power	Electric
Length	184mm (7.24in)
Width	141mm (5.55in)
Weight	Varies
Wheelbase	126mm (4.96in)
Internal Ratio	3.3:1
Power Source	Electric
Terrain:	Off-Road
Assembly Level	Kit
Drive	2WD
Body Style	Stadium Truck

*Final width, length and weight will vary based on electronics, tire configuration, wing position and vehicle setup.

Recommended Electronics:

- **Battery** (#27610 REEDY POWER 400mAh 60C 7.4V 1:28 Stick Battery)
- **Motor** (#27503 SONIC 1525 2500kV Micro Brushless Motor)
- **ESC** (#27045 REEDY BLACKBOX 300R Competition Micro ESC)
- **Servo** (#27175 REEDY RS0305A Micro Hi-Speed Servo
- **Charger** (#27203 REEDY 1416-C2L DUAL AC/DC COMPETITION BALANCE CHARGER)

Other Helpful Items:

- Body Scissors (AE Part # 1737)
- Hobby Knife
- Needle Nose Pliers
- Wire Cutters
- Soldering Iron
- Calipers or a Precision Ruler

SONIC 1525 Micro Brushless Motors

The Sonic 1525 is designed specifically for 1:28 and other micro vehicles intended for competition use. Thanks to input from our racing team and customers, the Reedy development team has created reliable, yet powerful design featuring the latest brushless motor technology along with the engineering experience that is responsible for 30 World Championship titles.

REEDY BLACKBOX 300R Competition Micro ESC

Reedy Power, a legendary name in the RC racing industry with 30 IFMAR World Championship titles, is proud to expand its lineup of competition level products with the launch of the Blackbox 300R Competition Micro ESC.

Reedy RS0305A Micro Hi-Speed Competition Servo

Reedy Power, a trusted name in RC performance electronics with 30 IFMAR World Championship titles, is excited to announce the launch of its all-new RS0305A High-Speed Micro Servo, engineered specifically for the fast-paced world of micro 1:28 scale R/C car racing. This cutting-edge servo delivers unmatched speed, precision, and durability, to claim gold-standard status for micro racing enthusiasts and competitive racers alike

REEDY POWER 400mAh 60C 7.4V 1:28 Stick Battery

Reedy Power, a leading name in RC performance electronics, is proud to announce the launch of its latest battery, a 400mAH 60C 7.4V LiPo designed specifically for 1:28 micro racing enthusiasts. Engineered for maximum power, durability, and efficiency, this cutting-edge battery is set to redefine performance standards in the increasing competitive world of 1:28 micro racing.
