# Eco Black Label

- Color: black, uncoated
- Weight: 90 gr
- Informations: Black material made of 100% recycled material, ideal for labels in the alcohol industry, providing an elegant look and protection against moisture. Matte finish.

# Sweet Cane Eco Label

- Color: white, uncoated
- Weight: 90 gr
- Information: Sugarcane material, environmentally friendly, ensuring high quality and durability. It has a matte finish, and it's resistant to moisture.

The perfect alternative to standard labels.

# Eco Elegance White

- Color: white, uncoated
- Weight: 110 gr
- Informations: Material made of 100% post-consumer recycled fibers, with a warm and elegant white shade. The material is resistant to moisture and mold.

Perfect for exclusive alcohol labels, giving them a unique character.

# Wine Harmony Recycled

- Color: beige, uncoated
- Weight: 90 gr
- Information: It's an uncoated, matte, smooth, self-adhesive material. The outer material consists of 15% grape waste from wine production. The remaining paper contains 40% post-consumer recycled fiber and 45% virgin wood pulp.

It is a unique combination of ecology and tradition, perfect for customers who value harmony with nature.

# Pure Vintage Paper

- Color: ivory (slightly yellow tint), uncoated
- Weight: 90 gr
- Informations: Unique paper made of 40% recycled fibers, giving the label a unique ecological character, created especially for the highest quality wines and spirits. The paper is resistant to moisture, mold and alkaline substances.

# Cotton Craft Label

- Color: white, uncoated
- Weight: 120 gr
- Informations: Self-adhesive material made of 100% organic cotton, offering a natural look and a unique velvet finish. The surface of the material has a clearly irregular structure. It has a matte finish. Resistant to moisture and fungicidal treatments.

Perfect for products from the alcohol industry
