## **FINLAND**

The world calls the country Finland. Finns call it Suomi. Suomi is a motherland of Joulupukki and Sauna with the country's total area 338 430 square kilometres and a population of 5 492 000 people. Helsinki - is the capital of Finland which is popular for its local urban city lifestyle, different international events and incredible historically meaningful cultural places.

## **OFFICIAL LANGUAGE**

The official language of Finland is Finnish.

## **CLIMATE**

There are about 187,888 lakes, the gulfs of Bothnia and Finland which help give the country a relatively mild climate. Average July temperature in Finland varies from 13°C to 17°C and in February -22°C to -3°C. In northern Finland, winter temperatures often drop as low as -30°C, or even down to -50°C.

## **CURRENCY**

The national currency of Finland is EURO (euro)

## **TRANSPORT**

There are about 25 regular airports and 44 Sea Ports in Finland. Suomi has also a well-developed bus and train transportation system what makes travelling in Finland more pleasant and comfortable.

## **CUISINE**

Finnish culinary culture is infused with the natural flavours of northern countries. Once you are in Finland, don't miss a chance of a local food tasting. Start your morning in a "Finnish style" with a morning coffee "Paulig" and a Leipäjuusto. There is a wide range of local restaurants serving traditional popular creamy salmon soup with Ruisleipä or Karjalanpiirakka for a lunch. Kalakukko is just one another option of many others for your food tasting in Finland. Finland is popular for the natural forest berries and that's why mustikkapiirakka with the herbs tea while sitting in front of the fireplace is a must!

## SNOW QUEEN ADVENTURE (28.12.2021-11.01.2022)

We all remember the well-known fairy tale written by H.C. Andersen. The main character Kai was kissed and put under the spell by the Snow Queen, and Gerda – a young girl – went through trials and saved Kai, whom she loved as a brother.

We know that Snow Queen lives far away in the cold Lapland. Many brave souls did their best to approach her, hoping to persuade her, but her heart of ice is unable to feel anything at all. People have thousands of legends about her, but nobody has managed to thaw her heart.

In this journey, children and parents become a part of the adventure. Together with a local guide, you will try to find Snow Queen's Ice Castle in the wilderness, fight robbers along the way, and hopefully get the right directions from a mischievous shaman. Will you survive and return home safe or will you become another ice sculpture in Snow Queen's fortress? To be continued...

**Duration:** ~ 3,5 hours

**Includes:** vehicle, English-speaking guide, program, hot berry juice.

## ICE FISHING BY SNOWMOBILE (beginning of December – end of March)\*

**NB!** Only a person possessing a valid driving license is allowed to drive a snowmobile.

Head for the wild waters on your snowmobile and learn all about the favourite leisure time activity of the locals. We cruise leisurely on snowmobiles to a good fishing location. However, the most important thing is to enjoy the tranquillity and silence of the wintry forest. Possible catch will be prepared to a tasty snack by the campfire – have you ever tasted fish that is this fresh? If you are out of Fisherman's luck today, there will still be a tasty snack for you.

**NB!** Children under 140 cm may participate in a sled only. Taller children may be allowed to travel as a passenger on a snowmobile provided they are strong enough to hold on tight (to be defined by the guide upon departure, full price applies).

## **NEW! REINDEER HERDERS' WINTER DAY (Lapland reindeer farm visit)** **(beginning of December - end of April)**

Daily: 10:00-18:00

If you are looking for a truly authentic Lappish experience off the beaten track, we have got something for you. Seize a chance to become a professional reindeer herder for a day on a remote family-run farm. Reindeer herding is a Lappish lifestyle, and with us you can experience traditional, calm, albeit modern reindeer herding culture. The actual farm is located far beyond the city lights and facilities of modern lifestyle.

After a 1,5-hour transfer, your day as a professional reindeer herder starts with reindeer feeding and checking that everything on the farm is running as it should. The feeding is carried out on foot and by snowmobile. Once all the feeding has been done, it's time to warm up with a hot drink and to grill some reindeer sausages on the open fire for lunch. After lunch, you will still have some errands to take care of, particularly a fun ride in a reindeer sled. In the end of the hard working day, your diligence will be rewarded with a bowl of steaming-hot reindeer soup.

**Duration:** 8 hours

**Includes:** transfers, shared program, reindeer safari (1km), guide services, reindeer soup, sausages, hot drink.

## SNOW QUEEN ADVENTURE (28.12.2021-11.01.2022)

We all remember the well-known fairy tale written by H.C. Andersen. The main character Kai was kissed and put under the spell by the Snow Queen, and Gerda – a young girl – went through trials and saved Kai, whom she loved as a brother.

We know that Snow Queen lives far away in the cold Lapland. Many brave souls did their best to approach her, hoping to persuade her, but her heart of ice is unable to feel anything at all. People have thousands of legends about her, but nobody has managed to thaw her heart.

In this journey, children and parents become a part of the adventure. Together with a local guide, you will try to find Snow Queen's Ice Castle in the wilderness, fight robbers along the way, and hopefully get the right directions from a mischievous shaman. Will you survive and return home safe or will you become another ice sculpture in Snow Queen's fortress? To be continued...

**Duration:** ~ 3,5 hours

**Includes:** transfer, guide services, hot berry juice.

## **NEW!** WILD FOOD FEST – A COOKING WORKSHOP (all year round)

Taste the magic of the Arctic and go wild with your friends and family with arctic flavors on an exclusive Wild Food Cooking Workshop. Using fire and ice, we create a feast in a traditional log cabin alongside a lake surrounded by Finland's most popular national park. Together we will prepare a three-course meal using wild, rare, and locally found ingredients grown in a clean and pure environment. Experiment with wild nettle seeds, combine local wild mushrooms with dark chocolate and more. Cook and share these delicious dishes around a private dinner table with friends and family.

We begin the workshop by making drinks with snow and local berries, and then the cooking begins. We create a pie made from nettle leaves and seeds with a fresh salad. For our main meal, we prepare a wild mushroom sauce over the fire with two different cuts of local reindeer, one from Sweden and the other from Finland. Will you taste the difference? The feast continues with desserts created from locally foraged berries and frozen outside in the snow.
