INVEST IN A BETTER FUTURE

Work for yourself and chart your own course.

An investment in a Fresh Coat Painters franchise is an investment in yourself, your family and a future that can be bigger, bolder, and brighter.

Fresh Coat can be the perfect vehicle for you to live the richer lifestyle you've dreamed of and to create the wealth and lasting legacy you've always desired. The pride, peace of mind and personal satisfaction that comes from owning a successful business in your community is something you can't put a price tag on. But to have more, do more and be more, you must have faith and bet on yourself.

YOUR CUSTOMERS FEEL GOOD AND SO DO YOU.

Watch any home-makeover show on TV and pay close attention to the final reveal. That's the moment when the homeowners walk in and are so happy to see their renovated and beautiful space. They either smile ear-to-ear or shed tears of joy. The home-service professionals responsible for that transformation are usually standing in the back, beaming with pride. Painting has that same wow factor. As a Fresh Coat owner, those same delighted and grateful customers can be yours as well as those feelings of satisfaction and pride week after week, year after year. As you serve an endless flow of new and repeat customers. And besides, most people don't enjoy or know how to do quality painting projects. Instead, they will gladly and willingly pay you and your team to freshen up their homes and lives.

BE A LEADER, NOT A PAINTER.

The Fresh Coat system is designed to build business leaders with the drive to succeed and an entrepreneurial spirit to build a thriving business. We don't want you holding a paint brush, ever! Instead, we'll teach you everything you need to know to successfully lead, market, operate, and grow your team and new business. Our proven systems will help you recruit, hire, and retain quality painters and maximize their productivity and your profits. Our pro-

ming, instant-quoting and project management simple and easy while keeping your costs low and profits high.

PROVEN TRACK RECORD OF SUCCESS IN A GROWING INDUSTRY

Fresh Coat is the flagship in the Strategic Franchising System's portfolio of five national brands and benefits from that thirty-year track record of franchising expertise and success. Most relevant, we've mastered the art and science of marketing and staffing home-service brands. As one of the largest and fastest-growing painting companies in the world, Fresh Coat proudly continues this legacy of success, innovation, financial strength, and franchise owner satisfaction.

Painting is a big piece of the home services industry projected to grow into a trillion-dollar business by 2026. At better than 35% annual growth, you'll have the opportunity to make substantial income. Better yet, painting is always in demand, in both good times and bad. It's one of the most impactful and affordable home-improvement projects and investments a homeowner can make, no matter the economy or housing market. People always want to update and change their living and workplace environments.

The award-winning Fresh Coat business model provides three lucrative profit centers to maximize your earnings potential: residential (interior and exterior), commercial (retail stores, restaurants, offices, apartments and more), and government projects. Residential projects cover everything, not just walls and ceilings. From cabinets to decks and even fences... if it can be painted, you can do it. Our commercial support provides not only specialized training and certifications for you and your team, but FREE LEADS vetted by our dedicated National Accounts team. These profitable painting projects come to you signed, sealed and delivered. Your team simply does the painting and collects the money.

FRANCHISE OWNER TESTIMONIALS

"I knew that I always wanted to be a business owner, and I knew at this juncture in my life I didn't want to go it alone. But I also wanted a certain degree of control. In understanding more about Fresh Coat, I learned that it was the right combination of support and ownership.

— *Bret M., Denton, TX*

I think the painting business is a good one to get into because it's always something that's in demand. Whether it be residential or commercial, even in down economic turns, people are still wanting to freshen up their homes, and painting is the most economical way. In times when the economy is up, it's a great opportunity for us to go in and do higher-end finishes.

—*Sarah R., Lakeway, TX*

The corporate team really wants you to do well, and all my hard work has paid off. We blew our first year proforma out of the water. At the end of November, we were 68% ahead of the projection for the first year. It's great to be part of the Fresh Coat family. With their long-term, first-hand experience, having them as resources gives me confidence that I can remain successful for years to come.

—*Eric S., Hartford, CT*

I have one customer who hired us to paint the exterior of her home. My team did a great job, and she called me back to paint the interior. Then her father-in-law called me to paint the exterior of his house. A guy down the street saw that work and called me to do his house. Now the lady across the street from him wants to talk with me. All those jobs stemmed from one job!

—*Paul and Linda T., Fort Worth, TX*
