Who We Are

DRYmedic is a trusted name in property restoration, specializing in water, fire, and mold damage repair. The franchise focuses on helping homeowners and businesses recover quickly from disasters with fast, reliable, and professional restoration services

With an established business model and extensive support, DRYmedic offers franchise owners the tools to build a thriving business in a recession-resistant industry. Driven by a commitment to quality and community impact, DRYmedic provides peace of mind when it's needed most.

Competitive Advantages

- **Recession-Resistant Industry:** The restoration industry provides essential services, ensuring consistent demand.
- **Business Model:** DRYmedic offers a scalable model designed for operational efficiency
- **Comprehensive Training and Support:** Franchisees receive robust training, ongoing operational support, and access to industry best practices.
- **Brand Recognition:** DRYmedic's reputation for reliable and professional restoration services builds trust with customers.
- **Diverse Revenue Streams:** With services covering water, fire, mold, and storm damage, DRYmedic franchisees can address a wide range of needs

Our Ideal Owner

Here at DRYmedic, we build executives-not technicians. Therefore, construction industry experience is not a quality that we seek out in a candidate. Instead, we are looking for outgoing Franchise Owners that have a passion for helping others during a time of need, enjoy continued learning, and the ability to follow a process.

Past Franchise Owners with the following characteristics have also proven to be successful with our business model:

- Competitive
- Collaborative
- Comfortable directing and managing others
- Directive decision makers: fair, timely and based on facts as presented
- Natural problem solvers
- Friendly and mature

Sales Process

Steps to ownership

1. Explore Our Website and Request Franchise Information
