Additional Details

GLO30 is a doctor-founded medical spa that offers a unique, membership-based model designed to deliver customized facials every 30 days. At the core of its offerings are minimally invasive and non-

invasive cosmetic treatments, including peels, injectables, facials, microdermabrasion, and light therapy. Each month, clients receive tailored treatments at no additional cost, ensuring that their skincare routines are adjusted to their evolving needs. This approach enhances customer loyalty while providing ongoing value through regular, personalized care.

A key differentiator for GLO30 is its use of cutting-edge technology, specifically the proprietary AI-powered skin analyzer called GLOria. This tool measures three essential skin health determinants—tone, texture, and tightness—providing real-time data that enables highly customized treatment plans. Founded by Dr. Arleen K. Lamba, GLO30 seamlessly blends medical-grade skincare with advanced technology, offering a unique and effective solution for modern skincare needs. Positioned at the intersection of beauty, wellness, and technology, GLO30 is revolutionizing the skincare industry by providing accessible, high-quality treatments tailored to each client's individual needs.
