PROTECTION PLAN

DAMAGE DUE TO FIRE, THEFT, OR VANDALISM ?

Naturals2Go will get you back up and running by replacing a machine and/or it's parts purchased through Naturals2Go if you suffer a loss due to Fire, Theft or Vandalism with a deductible of \$1,500 per incident/per machine.

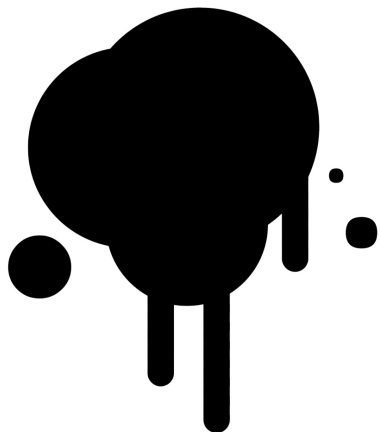

We've Got You Covered!

In the event of an incident simply:

- Provide the details
- Include Pictures
- Include a Police Report
- If applicable include a report from the Fire Department

“What if I lose one of my machines to theft/fire or what if it is vandalized ?”

It would be rare. Remember while we have machines in every type of location, the number one place for a vending machine is in a break room of a business, which is like having an additional level of security and not accessed by the general public. An employee is not going to risk their job by beating up your machine. So vandalism is unheard of in that situation. However, if you suffer a loss from Fire, Theft, or Vandalism , we've got you covered!
